## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to a portable radio housing with display, classified in class 455, subclass 90.3.
  - II. Claims 9-20 and 29-38, drawn to a wearable device used in short-range bi-directional communication, classified in class 455, subclass 41.2.
  - III. Claims 21-28 drawn to a broadcasting system having transmitting device and receiving device, classified in class 455, subclass 3.05.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions [I] and [II] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention [II] has separate utility such as a wearable device used in short-range bi-directional communication. See MPEP § 806.05(d).
4. Inventions [I] and [III] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention [III] has separate utility such as a broadcasting system. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed.
